Web Developer with 5 years of experience in **Front-End Development** (Next.js, React, TypeScript), professionally trained in **Computer Science**, focused on interface and application development following **UI/UX best practices**. Specialized in building high-quality digital experiences.

Experience

Freelance | Venezuela, Caracas

Frontend Developer | 03/2024 - Present

- Web Application Development with Next.js and TypeScript (Creation of landing pages and static/dynamic web applications using Next.js with SSR)
- Responsive Layout with TailwindCSS and Figma (Conversion of Figma/Adobe XD designs into functional code with TailwindCSS)
- Fixed bugs and updated dependencies.
- Maintenance and Legacy Project Migration
- API and Backend Integration.
- Optimization and SEO (Performance improvement – lazy loading, image optimization – and Next.js meta tag configuration for SEO).

Seven Suite | Costa Rica, San Jose

Software Developer | 12/2022 - 03/2024

- Developed components and interfaces by implementing clean, efficient, maintainable, scalable, and reusable code using TypeScript and Tailwind CSS through Next.js.
- Created dashboards and data visualizations.
- Integrated with REST APIs to obtain and present precise, required information.
- Implemented visually attractive, intuitive, and easy-to-navigate user interfaces, ensuring optimal performance across all browsers.
- Troubleshoot and optimized performance for platform efficiency.

Alliance Tech Solutions CR | Costa Rica (San Jose)

React.js Developer | 04/2021 - 07/2022

- Optimized web application performance, reducing average load times by 25% through library restructuring and bundle optimization
- Collaborated with UX/UI teams to implement responsive, accessibility-compliant designs.
- Developed 20+ reusable custom components that were adopted across multiple application modules, improving development efficiency

DIRECTV | Venezuela, Caracas

Process Control Specialist | 01/2013 - 05/2018

- Develop and automate forms and data entry processes using Visual Basic.
- Generation and maintenance of essential information for the supervision of personnel management in the organization.
- Monitoring personnel management via the Intranet.
- Administration of personal credentials to guarantee secure access to the company's network.
